Dear Sir or Madam:

On January 27, 2026, Centers for Medicare and Medicaid Services (CMS) Administrator Dr. Mehmet Oz posted a video to an official social media account in which he spewed baseless and racially charged allegations targeting the Armenian community in Los Angeles, including that a popular bakery's use of "Russian Armenian" "lettering" and "language" in public signage was an indicator of affiliation with the Mafia.<sup>1</sup>

Such racially charged and false public statements by anyone involved in administering these critical federal healthcare programs seriously risks chilling participation in those programs by individuals targeted by the statements. They also reflect discriminatory animus, and reveal a discriminatory motive that could infect how investigations of alleged fraud are conducted. The risk of those harms is compounded when the statements came from the top decisionmaker at CMS. Additionally, Dr. Oz's comments have already caused real world harm, as the bakery targeted by his comments reported a 30% drop in sales after this video's release.

Accordingly, on behalf of the Armenian community in California, our office is filing this civil rights complaint and seeking an investigation and
